## PROFESSIONAL SUMMARY

Passionate MERN Full Stack Developer with 6 years of prior experience building banking software in .NET and SQL Server, now certified (NSDC, 2025) in MERN. Built two full-stack applications with JWT authentication, role-based access, REST APIs and Redux Toolkit.

## TECHNICAL SKILLS

- **Frontend:** HTML5, CSS3, JavaScript, React, Redux Toolkit, Tailwind CSS, Bootstrap, Axios
- **Backend:** Node.js, Express.js, RESTful APIs, JWT Authentication, bcrypt, ASP.NET, .NET Framework
- **Databases:** MongoDB, Mongoose, SQL Server
- **Tools:** Git, GitHub, Postman, VS Code

## PROJECTS

**Skill Swap – Skill Exchange Platform** | React, Node.js, Express.js, MongoDB, Mongoose, Redux Toolkit, Axios
Live demo: skillswap-sarala | Code: GitHub **June 2026**

- Built a full-stack MERN platform where users list the skills they can offer and the skills they want to learn, then connect with other users to exchange skills.
- Developed user features including registration and login, profile creation and editing, skill listing, and browsing other users' skill profiles.
- Built an admin dashboard to manage users and skills, with global state handled by Redux Toolkit and the frontend connected to the backend using Axios.
- Secured the platform with JWT authentication, bcrypt password hashing and role-based authorization, so admin routes are only accessible to admin users.

**Shop Ease – E-Commerce Web Application** | React, Node.js, Express.js, MongoDB, Redux Toolkit, Axios, Multer
Live demo: ecommerce-sarala | Code: GitHub **July 2026**

- Built a full-stack MERN e-commerce platform with separate customer and admin roles, covering the flow from browsing products to placing and managing orders.
- Developed an admin dashboard to add, edit and delete products, upload product images using Multer, and manage customer orders.
- Implemented customer features including shopping cart, wish list and checkout, with cart, wish list and user session managed globally in Redux Toolkit and connected to the backend using Axios.
- Built RESTful APIs with Express.js and Mongoose for products, users, cart and orders, secured with JWT authentication, bcrypt password hashing and protected admin routes.

## PROFESSIONAL EXPERIENCE

**Full Stack Developer and Team Leader** **2012 – 2018**
*The Egmore Benefit Society Limited, Chennai.*

- Developed banking software using .NET Framework and SQL Server, improving transaction processing speed by **40%** and reducing reported UI issues by **40%**.
- Identified and resolved **50+ defects before release** through code review and testing, reducing post-launch issues.
- Refactored legacy modules to improve maintainability and reduce recurring defects.
- Designed responsive interfaces for banking workflows, simplifying navigation across frequently used transactions.
- Delivered customized software solutions for **50+ clients**, addressing business-specific workflows and requirements.

## CERTIFICATIONS

**Program in AI Enhanced Full Stack Development (MERN)** **2025**
*Entri Software Pvt. Ltd. – Skill India (NSDC)*

- Covered HTML, CSS, JavaScript, React, Tailwind CSS, Node.js, Express.js, and MongoDB.
- Built and consumed RESTful APIs and implemented user authentication.
- Deployed full-stack projects and managed version control with Git and GitHub.

## EDUCATION

**Master of Computer Applications (MCA)** **April 2011**
*Seethalakshmi Ramaswami College, Bharathidasan University, Tiruchirappalli*
